

# Longitude and Latitude

Lines of longitude and latitude are used to find exact (absolute) locations of places.

Use the lines of longitude and latitude on your map of Canada to find what is located at these points.

Latitude	Longitude	Location
1. 61°N	135°W	
2. 48°N	123°W	
3. 44°N	79°W	
4. 51°N	105°W	
5. 44°N	63°W	
6. 45°N	76°W	
7. 54°N	113°W	
8. 47°N	71°W	
9. 48°N	53°W	
10. 51°N	114°W	

Now write the latitude and longitude of these cities:

1. Montréal \_\_\_\_\_

2. Vancouver \_\_\_\_\_

 Bonus

Write the longitude and latitude of the capital city of the country in which you live.
